

Garment Copy

Bring Your Favorite Garment, We Copy It.

1) GARMENT

Bring your favorite garment that fits you perfectly. Maybe you want to change the fabric, or perhaps it is just wearing out. We will copy that exact garment but this time you get to choose the fabric and trim.

2) PRICE POINT

Keeping a specific, objective price point in mind can help when it comes to critical design and construction details. You might want to change minor details in order to keep your cost down.

3) FABRIC AND TRIM SELECTION

All fabrics and trims must be chosen before patterning begins. Fabrics can be researched and selected through SewRob. You may also decide to research and shop for fabrics on you own to cut down on cost. Please ask for care instructions from you supplier.

Fabrics..... Paid in Full at Time of Order

4) PATTERN DEVELOPMENT

A pattern will be drafted based on your garment. A flat rate cannot be given because the patterning is charged by the hour. The more complicated your design, the more hours it will take to pattern.

Patterning..... \$53.50/Hour

5) MUSLIN

A muslin is constructed, which is a copy of your garment, basted in a test fabric. All changes of your fit and design will take place during this fitting. All undergarments and shoes must be worn during fittings. Once the muslin is approved, construction of the final fabric will begin.

Muslin Basting..... \$37.50/Hour

6) FINAL CONSTRUCTION

Cutting and sewing of your final fabric is also charged at an hourly rate.

Cutting..... \$37.50/Hour

Sewing..... \$66.00/Hour

7) FINAL FITTING

Any last tailoring will be done, garment will be pressed, and you can take home.
