

# Your Design

-----  
You Pick the Design, We Custom Make It.

## 1) IMAGE

You can bring in your favorite picture of the garment or we can sketch some ideas for you to choose from.

Sketching..... \$88.00/Hour

## 2) PRICE POINT

Keeping a specific, objective price point in mind can help when it comes to critical design and construction details.

## 3) MEASUREMENTS

Full body measurements will be taken and details of your design will be discussed.

Measurements..... \$32.00

## 4) FABRIC AND TRIM SELECTION

All fabrics and trims must be chosen before patterning begins. Fabrics can be researched and selected through SewRob. You may also decide to research and shop for fabrics on you own to cut down on cost. Please ask for care instructions from you supplier.

Fabrics..... Paid in Full at Time of Order

## 5) PATTERN DEVELOPMENT

A pattern will be drafted based on your design selection and your specific measurements. A flat rate cannot be given because the patterning is charged by the hour. The more complicated your design, the more hours it will take to pattern.

Patterning..... \$53.50/Hour

## 6) MUSLIN

A muslin is constructed, which is a copy of your design, basted in a test fabric. All changes of your fit and design will take place during this fitting. Depending on the complexity of your design, additional fittings will be needed. All undergarments and shoes must be worn during fittings. Once the muslin is approved, construction of the final fabric will begin.

Muslin Basting..... \$37.50/Hour

## 7) FINAL CONSTRUCTION

Cutting and sewing of your final fabric is also charged at an hourly rate.

Cutting..... \$37.50/Hour

Sewing..... \$66.00/Hour

## 8) FINAL FITTING

Any last tailoring will be done, garment will be pressed, and you can take home.
